

Activity Box Information

As we are not currently able to use shared supplies students can bring their own personal items to play with during free time. While we do have other activities planned, students do spend a set amount of time playing in their activity box every day. Activity boxes will be available for purchase in the multipurpose room during operating hours.

Activity box- \$10

Guidelines

We recommend items such as: legos, play-doh, blocks, a book to read, a pencil, shapes, hot wheels, action figures, plastic dolls, rainbow loom, activity books, pop its, and fidget toys.

**Items that will also be needed to participate in crafts:
crayons/colored pencils, a glue stick, and scissors.**

We have found it is easier if students leave that activity box at Kids Zone during the week and take it home during the weekend to clean out/refresh their activity box.

All items must be able to easily fit in the container with the lid closed.

Please do not include items such as: permanent markers, paint, balls, electronics, stuffed animals, whistles, or anything that would go in their mouth.
